

Ad-hoc information**Semperit: Impairment at Sempermed segment**

Vienna/Austria, 06 August 2018 – Following a thorough review, the Management Board of Semperit AG Holding identified in the process of its mid-term planning and the preparation of the half-year financial statements as of 30 June 2018 the need for recognising an impairment loss (pre tax) of about EUR 55 million at Sempermed segment (first half 2017: impairment loss of EUR 26.0mn).

The business development of Sempermed is currently in decline. The reasons for this are mainly seen in the growing competitive and price pressure, the limited availability and price increases of some input factors and inefficiencies in production.

Mid-term planning has recently been conducted in the light of the ongoing restructuring and transformation process as well as the observable uncertainties in the business development of Sempermed. Given this, the need for recognising an impairment loss was identified. A future decision about the corporate portfolio of the Semperit Group is not related to that.

From today's perspective, Semperit Group's earnings after tax will be negative in 2018 (2017: EUR -26.3mn). The exact amount of the impairment loss will be included in the half-year figures and will be disclosed with the publication of the half-year 2018 financial report on 23 August 2018.

About Semperit

The publicly listed company Semperit AG Holding is an internationally-oriented group that develops, produces, and sells highly specialised rubber and plastic products in more than 100 countries for the medical and industrial sectors: examination and surgical gloves, hydraulic and industrial hoses, conveyor belts, escalator handrails, construction profiles, cable car rings, and products for railway superstructures. The headquarters of this traditional Austrian company, which was founded in 1824, are located in Vienna. The Semperit Group employs around 6,800 people worldwide, including around 3,700 in Asia and more than 800 in Austria (Vienna and production site in Wimpassing, Lower Austria). The group has 16 manufacturing facilities worldwide and numerous sales offices in Europe, Asia, Australia, and America. In 2017, the group generated sales of EUR 874.2 million and an adjusted EBITDA (without one-off effects) of EUR 35.8 million.
